UPSIDES

Using Peer Support In Developing Empowering Mental Health Services

<i>Description</i>	UPSIDES will scale-up peer support interventions for people with severe mental illness in high-, middle- and low-resource settings. An international community of practice for peer support including peer support workers, mental health researchers, and other relevant stake-holders in Europe, Africa and Asia (8 study sites in 6 countries) will be established. Peer support will be implemented adapted to the local context. Using a mixed-methods approach, the impact of peer support will be rigorously evaluated at the levels of service users and peer support workers (psychosocial and clinical outcomes), services (cost-effectiveness, return on investment), and implementation (adoption, sustainability, organisational change).
