## Workshop (Sprache nur Deutsch)

Psychoonkologie „Das Erstgespräch und die weitere Begleitung“  
Topic:

- Das strukturierte Erstgespräch in 5 Schritten
- Beschwerden des Patienten – Empathie mit Maß und Ziel
- Die Belastung von Patient und Therapeut
- Bewältigungsstrategien

Das Gespräch spielt eine entscheidende Rolle in der Begleitung Krebskranker, in allen Phasen der Erkrankung. Gegenstand dieser Gespräche sind die Belastungen des Patienten und dessen ganz persönliche Art, mit diesen umzugehen. Wie schaffe ich als behandelnder Kliniker/Therapeut die Basis für eine vertrauensvolle, hilfreiche Beziehung – und einen hierdurch gekennzeichneten gelungenen Dialog?

Im ersten Teil des Workshops soll ein stark strukturiertes Modell für solch ein Gespräch vorgestellt werden, zusammen mit einem kurzen Ausflug in die Logik der Gefühle, Betrachtungen über den Begriff der Empathie, wie auch der typischen Bewältigungsstrategien, die wir bei unseren Patienten beobachten können. Nach der Pause werden konkrete Beispiele vorgestellt - auch aus der Arbeit der Teilnehmer - mit Gelegenheit zur Diskussion.

Freitag, 10. Oktober 2014: 13.00 – 17.00 h mit Pausen

Leitung des Workshops: Dr. med. Peter Weyland, Biberach  
Vom Kongress gesonderte Anmeldung ist erforderlich.

Für Interessenten am Psychoonkologischen Workshop, die nicht am Kongress teilnehmen wollen, wird eine Workshop-Teilnahmegebühr in Höhe von Euro 70 erhoben. Bei regulärer Anmeldung zur Kongressteilnahme entfällt diese Gebühr.
